Thématique
Forest and moorland

After enjoying all the outdoor possibilities at Hostens, the Scandibérique continues south, via a long stretch of greenway, to the town of Bazas and, thanks to a recent extension, as far as Langon. This good-quality greenway in fact makes it possible to go from the Bassin d'Arcachon by the coast to the Canal de Garonne (via Langon and Castets-en-Dorthe). You cycle along a really lovely path through quiet pine forests. Note how different plots are planted with pines of different ages. While the colour green dominates, when heather and broom flower, Impressionist touches of yellow, white, pink, red and purple are added to the picture. If heading out quietly early in the morning, you may encounter deer on your path.

The route

The route
Via a greenway. Take care crossing the RD3 road at St-Symphorien. The way is signposted.

Surfacing smooth: asphalt.

PROVISIONAL ROUTE VIA BAZAS > CASTILLON DE CASTETS

At time of writing, the route via Langon wasn't fully laid out, so, while awaiting its completion, cyclists have had to follow minor roads between Bazas and Castillon de Castets before rejoining the part shared with the Canal des 2 Mers à Vélo route. Signposted EV3.

Link

At Hostens, cycling link towards Mios, the Bassin d'Arcachon and La Vélodyssée major coastal cycle route.

9km from Bazas, at the place named La Gare, follow the greenway to reach Bazas.
