Along the water

Leaving Montargis, you change canal, the Scandibérique leading you on via the towpath beside the Canal de Briare. The Loing River meanders on by next to the canal, providing a green setting along this most peaceful of stages. Greet the lock-keepers and those on boats on the canal as you head down this friendly waterway, the route dotted with charming Gâtinais villages. You reach the highlight of this stage of the Scandibérique adventure at Rogny les 7 Écluses, the name giving away the reason for this village's fame – its flight of seven locks! Do pause here for a picnic, taking in the grand view.

### The route

On a greenway along the Briare Canal and on minor roads. No particular difficulties along this stage. Signposted EV3.

**Surfacing in parts smooth, in parts rough:** asphalt in more or less good condition along the towpath, with some stretches of compacted tracks.
